

PUPPY PLAY GROUP

Puppy Preschool
a unique course for puppies under 5 months of age
Early Learning - the easy way to a happy well adjusted adult dog

ALL THE CARE YOUR PET NEEDS!

Early Socialization

This has long been recognised as a vital factor in the development of the happy, well adjusted adult dog. Play with other dogs and puppies teach the dog how to mix and be part of a structured group. Similarly, through controlled play, owners can teach the puppy the positive behaviours expected of a pet dog.

This unique course emphasises the importance of socialisation; puppies will be encouraged to meet other puppies, dogs and a variety of people. They will also be introduced to different situations and experiences. Our aim is that PETVET will become a fun place rather than somewhere to be nervous about.

Owners will teach puppies to come when called, both inside and out; not to pull on the lead; to sit and lie down on command; to be handled and groomed, and how to play games devised to stimulate the dogs mind and to increase control.
